Sing in the heart of Andalusia

Nestled in the very heart of Andalusia, CANTAQUERA sets the stage for an international choral event in 2026. Ideally located between Málaga and Seville, the host city of Antequera has long been a crossroads of civilizations. Now, choirs from around the world are invited to add their voices to this rich heritage.

The competition unfolds in some of Antequera's magnificent churches and historic sites. Choirs will also have the unique opportunity to perform Friendship Concerts across the region, creating unforgettable moments together with other choirs.

Beyond the competition, participants can explore one of Spain's most fascinating UNESCO World Heritage sites—the Antequera Dolmens. As a cultural and historical treasure, this ancient landmark, along with the town's rich architectural heritage, makes Antequera an inspiring destination for music lovers and history enthusiasts alike.

Join us for CANTAQUERA, where the magic of Andalusia meets the universal language of choral music. Step onto an international stage and experience an event that will leave you with lifelong memories.
